## Chairman's Message

ACMA – Technology and Industrial Competitiveness

Dear Reader,

I am pleased to share Volume 18, Issue 1 of IMPACT, the ACMA Excellence Award Special Issue. As Steve Jobs once said, "We don't settle for anything less than Excellence," a belief that resonates deeply with us at ACMA. Each year, the ACMA Excellence Awards recognize companies that raise the bar in innovation, sustainability, and operational excellence. I commend all participants for their dedication and congratulate the winners across key categories, including Manufacturing, ESG, Digitalization, Safety, Exports, and more.

These outstanding companies will be honoured at the 10th ACMA Mobility Foundation (AMF) Technology Summit on March 4, 2025, in New Delhi. This year's theme, "Viksit Bharat: Innovating for an Inclusive, Sustainable & Resilient Manufacturing Future," reflects India's vision of economic growth, social inclusivity, and environmental responsibility. The auto components industry plays a crucial role in this transformation, driving innovation, strengthening supply chains, and fostering a globally competitive manufacturing ecosystem.

Technological advancements such as AI, IoT, and automation are revolutionizing our sector, enhancing efficiency and precision. Platforms like the Bharat Mobility Global Expo 2025 highlighted India's progress in electric vehicles, connected mobility, and green technologies while promoting collaboration. Equally important is inclusivity—through skill development programs, we are empowering semi-urban youth and women, fostering a more diverse and capable workforce.

Sustainability remains at the heart of our industry's evolution. Initiatives like the National Green Hydrogen Mission and PM e-Drive Scheme are reinforcing India's commitment to cleaner, more efficient mobility solutions. Meanwhile, resilience is being strengthened through strategic investments, MSME support, and initiatives like the National Industrial Corridor Development Program, driving competitiveness and employment.

To support this transformation, ACMA's Technology and Industrial Competitiveness Pillar continues to offer specialized cluster programs, training and workshops, including programs on ESG, Lean Manufacturing, Robotics, Low-Cost Automation, and Corrosion Prevention, and more. The ACMA Centre of Excellence (ACoE) provides both virtual and in-person programs on safety, innovation, quality, and supply chain development, equipping industry professionals with the skills needed for the future.

I encourage you to take full advantage of these offerings from ACMA and look forward to your feedback on this publication.

Best wishes  
**Vikrampati Singhania**

## CATEGORY - MEDIUM

**Company Information:** Abilities India Pistons & Rings Limited (AIP) was established in 1968 by Mr. RS Arora and is a renowned manufacturer of pistons and piston rings. The company holds prestigious certifications, including ISO 9001:2015, IATF 16949:2016, ISO 14001:2015, and ISO 45001:2018, affirming its commitment to quality, cost compatibility, innovation, and environmental sustainability.

AIP operates dedicated manufacturing facilities for pistons and piston rings, catering to the lawn and garden segment, as well as 2 and 4-stroke engines for the automotive sector. The company's expertise extends to the production of other machined parts, such as aluminum cylinders, crankcase, oil caps & covers. Utilizing GDC and HPDC, & coating processes (Ni-P-B & Tin Coating).

**Abilities India Pistons & Rings Ltd.**

## MISSION

- 1.1. Enhance customer satisfaction through best quality & timely delivery at a competitive cost.
2. To produce a valuable product in a sustainable manner, while upholding and promoting human values through responsible and ethical practices.

1. उच्च कालिटी, समय पर डिलीवरी और प्रतिस्पर्धी मूल्य के जरिए हम कस्टमर को संतुष्ट करेंगे।
2. हम जिम्मेदार और नैतिक प्रथाओं के माध्यम से मानवीय मूल्यों को बनाए रखने और बढ़ावा देने के साथ-साथ टिकाऊ तरीके से एक मूल्यवान उत्पाद का उत्पादन करेंगे।

3. Attaining continual improvement in Safety, Quality, Cost, Delivery & Environmental parameters by training, technology & employee involvement.
4. Provide a good health to employees & safe working environment in shop floor with flora & fauna.

3. हम प्रशिक्षण, प्रौद्योगिकी और कर्मचारी भागीदारी द्वारा सुरक्षा, गुणवत्ता, लागत, वितरण और पर्यावरण मापदंडों में निरंतर सुधार करेंगे।
4. हम कर्मचारियों को अच्छे स्वास्थ्य, सुरक्षित कार्य वातावरण और अच्छे वातावरण का निर्माण करेंगे।
5. अगले तीन साल में अपने टर्नओवर को दोगुना करेंगे।

5. 2 fold growth in the next 3 years.

www.aippistons.com

### Company Strengths:

- AIP continues working in R&D, Innovation & Digitalization in our manufacturing.
- AIP currently holds two patents: one for High-Pressure Die-Casting (HPDC) Piston
- Second for Electroless Ni-P-B Coating on Pistons and cylinders.
- AIP has successfully developed and commercialized our IP technique for HPDC part
- AIP diversifies there product range and adds to cylinder, crankcase & covers.

### ACMA Excellence Awards category explanation:

- ESG refers to a company's commitment to ethical and sustainable practices.
- Development of HPDC Part helped us to increase our market cap in export business

**Company Information:** ADM Group is a forward-thinking engineering partner dedicated to innovation & excellence in the automobile sector & beyond. With nearly two decades of experience, our robust team of 7 advanced manufacturing facilities for fluid transmission product, Emission and thermal management systems and elastic suspension.

ADM group has been Leading the creation of Smart, Sustainable Solutions for more than Two Decades. What began in 1998 with Tube Solutions for OEM and Tier II Automobile Players, now extends Offerings across Emission, Fluid Transmission, Flexible Metal, Precision Tubes Elastic suspension and Future Mobility Products. The ADM group's key focus lies in Delivering Excellence across Engineering Supply Chain and Industry leasing solutions for automotive & industrial needs.

### Company Strengths:

- 15+ years of experience in design, development & Validation of EGR, ODT & Exhaust
- Top 3 in the world for Auto Hydroforming capability.
- Only company to provide Emission, Fluid Transmission Complete solution to OEMs
- Mastered Complex & Intricate Joining processes—Brazing, Welding & Smart Joining
- Advanced Automations, Robotics and Digital deployments (i4.0)

### ACMA Excellence Awards category explanation:

- It's imp. for improving efficiency & competitiveness of a supply chain
- We Built a culture of risk prevention and employee well-being in the company
- Technology drives innovation and transformation in our plant
- Recognizing outstanding innovation, efficiency, and quality in manufacturing
- Honouring commitment to ESG driving sustainable growth, ethical practices
- We Provide Complete solutions Emissions, fluid transmission complete solu. to OEM

### How it is helping your company to improve further:

- Benchmarking Against Industry Leaders—our performance against the best in the industry and identify areas for improvement.
- Encouraging Innovation & Best Practices—Due to awards encourages us to innovate, adopt global best practices, and enhance efficiency.
- Employee Motivation & Engagement—Being recognised boosts employee morale, fostering a culture of excellence and continuous improvement
- Enhanced Brand Reputation
- Driving Continuous Improvement

## CATEGORY - MEDIUM

**Company Information:** We are pleased to introduce AMREP, a premier manufacturer of automobile clutch assemblies and starter ring gears for trucks and tractors. Established in 1967, AMREP has built a strong reputation as a trusted supplier to leading Original Equipment Manufacturers (OEMs) in India and international markets. With a legacy spanning over five decades, the company continues to be at the forefront of clutch technology and innovation, delivering high-performance solutions for the evolving automotive industry needs.

AMREP supplies clutches and ring gears to all major OEMs in India and has a robust export presence in countries including the USA, Croatia, Italy, Spain, Japan, Mexico, Turkey, China, Sri Lanka, and Bangladesh. For more details, please visit our website at [www.amrep.in](http://www.amrep.in)

### ACMA Excellence Awards category explanation:

- Focusing on Tier 2 supplier development to meet quality, cost, and delivery.
- Performance parameters are controlled via an online digital quality system.

### How it is helping your company to improve further:

We were nominated for excellence awards in Digitization, Tier 2 Supplier Development, Export, Safety, and Manufacturing, winning bronze medals for Digitization and Tier 2 Supplier Development. The ACMA Awards process drives continuous improvement by benchmarking industry best practices, fostering innovation, and enhancing efficiency, quality, and competitiveness, helping us achieve higher operational excellence and sustainable growth.

### Company Strengths:

- We use indigenous design and tech innovations to enhance customer satisfaction.
- Receiving quality awards from customers and our products are self-certified
- AMREP supplies clutches and ring gears to top automotive brands globally.
- Ring Gear Division new production line for increasing the capacity/efficiency.
- AMREP focuses on innovation, customer satisfaction, and sustainable growth.

## CATEGORY - MEDIUM

**Company Information:** ANAND CY Myutec Automotive (ACYM) combines ANAND's proven competence with CY Myutec's (Korea) cutting-edge innovation in the manufacture of automotive synchroniser rings. By focusing on delivering quality designs and customised products for new OEM models, we continue to remain the industry front-runners.

Our belief in the power of partnership inspires us to innovate and exceed customer expectations consistently. We endeavour to cater to future needs by constantly updating our infrastructural, innovational and collaborative competencies.

Forging and Machining are our key processes. We have two plants, one is situated in Gurgaon, Haryana, where we manufacture brass synchronizer rings and the other plant is in Bhiwadi, Rajasthan, where we handle Steel and other new development parts.

### Company Strengths:

- Process of Goal Setting involving Customers and Suppliers
- Operating Engineer model with a holistic approach of skilling
- Industrie 4.0: IoT on machines with a vision of automation and integration
- Anand Visual Management System for quick visualization and control
- Visionary Small Medium Enterprises Program for Supplier Development

### ACMA Excellence Awards category explanation:

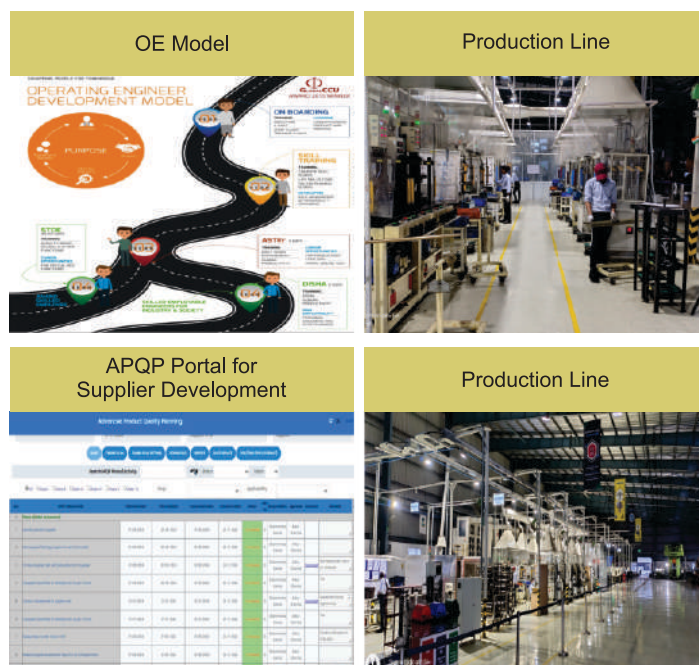

Collaborate, extend support and grow with suppliers to meet customer demand

### How it is helping your company to improve further:

Participating in ACMA Excellence award was a boost to self analysis and an opportunity to benchmark ourselves against industry standards.

This process helped us understand gaps and ways to improve further. It is an opportunity to showcase our best practices to jury member and understand way further.

## CATEGORY - VERY LARGE

**Company Information:** Asahi India Glass Ltd. (AIS) is India's leading integrated glass and window solutions provider and a dominant player both in the automotive and building and construction segments. For over 30 years, AIS has been the preferred choice for automotive OEMs. With a greater than 70% market share, AIS Auto Glass products and solutions can be seen on India's best vehicles across the automotive segments. The AIS range of products and solutions include laminated glass for windshields, tempered glass for side windows, backlites, sunroofs, and windshields, along with sub-assemblies and a wide array of value-added glass products.

AIS boasts of a widespread network of plants and advanced sub-assemblies across India. This extensive infrastructure is a result of the growing demand for high-quality product

### Company Strengths:

- AIS has evolved 12-Pillars for competitiveness
  - 1 Scale
  - 2 Scale in Purchase
  - 3 Location advantage and scale at each location
  - 4 Vertical integration
  - 5 Ethics
  - 6 Localization: Tooling, D&D & CAPEX
  - 7 Balance between Manpower & Automation
  - 8 Management System for Entrepreneurship
  - 9 Integrity
  - 10 Process Excellence
  - 11 Glocal: AGC strength mixed with Indian Mgmt
  - 12 CUSTOMER TRUST

### ACMA Excellence Awards category explanation:

Strong team structure in the areas of development R&D and PT in terms of skills

### How it is helping your company to improve further:

- A clear road map is defined for NMD, including R&D and innovation in the field.
- Top management involvement
- Internal tool room, machine manufacturing, and R&D Center, which give us a competitive edge.
- Localization is a key advantage in our business.
- Strong risk mitigation: multi-location facility, pan-Indian presence of resources and skills
- Practicing all systems, like TQM and APQP
- Benchmarking in all aspects with the best in glass (global benchmarking) for process and product

**Company Information:** Welcome to Welspun, a dynamic and rapidly expanding global conglomerate valued at US\$ 3 billion. Headquartered in Mumbai, India, we have established ourselves as leaders in diverse industries, including Line Pipes, Home Textiles, Infrastructure, Warehousing, Oil and Gas, Steel, Advanced Textiles, and Flooring Solutions. Our extensive footprint spans over 50 countries, with over 30,000 dedicated employees and a thriving community of over 100,000 shareholders.

Welspun BAPL entered the Automotive sector in 1986. Over the years, we've expanded our offerings in the automotive industry, mastering cutting-edge technologies with 10 operations across the Indian Automotive corridor. Under Welspun BAPL's leadership, Welspun World is extending its support to partner OEMs to grow the Auto Industry.

### Company Strengths:

- BAPL Rototech Market Leader in Fuel tanks & AdBlue tanks for Commercial Vehicles
- Powering the Indian Automotive Growth story.
- ESG-Dive into our commitment to ESG practices that weave positive impacts.
- Awards and Recognition -Delight our customers through innovation and technology.
- Establishment of World Class Quality Standard (WCQS) across the plant.

### ACMA Excellence Awards category explanation:

- A track record of assisting businesses in their growth and success.
- The vision and exemplary commitment of our leadership for ESG.
- Unveil our investment in pioneering research, development & New Technology.

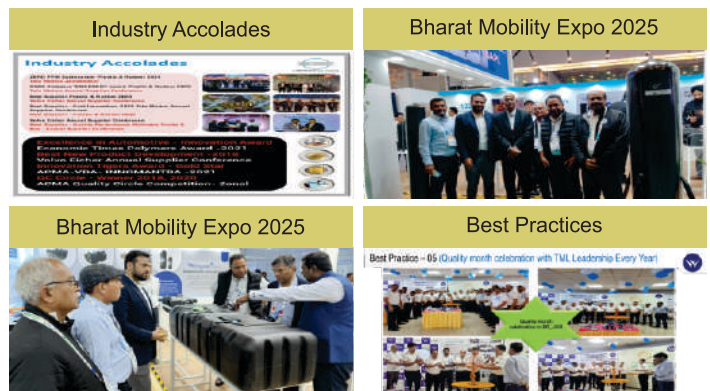

### How it is helping your company to improve further:

The ACMA Excellence Awards provides the platform to create a benchmark in the industry.

ACMA Excellence awards Elevate automotive business to new heights with the prestigious Award, solidifying the industry standing and establishing us as a trusted and influential leader.

The accolades from ACMA Excellence Awards serve as a powerful testament to our commitment to excellence, attracting and retaining a devoted customer base. Gain a competitive edge in the market.

The organization was established in 1969 Faridabad, India.

The Company is well diversified across customers and industry segments, both in the domestic and exports market.

Today the organization is deeply backward integrated with its own fully controlled support for key functions such as furnace brazing and rubber compound mixing along with all requisite equipment, manpower, infrastructure as well as years of knowledge and experience in the fluid transmission products domain to serve our customers in a timely and productive manner.

### Company Strengths:

- Imperial Auto, the largest supplier of fluid transmission products in India.
- Multi-site manufacturing facilities located near customer destination.
- Global warehousing ensures fast delivery to meet customer needs.
- Technology blueprint with R&D and JVs drives innovation and product excellence.
- Serves diverse customers with tailored solutions and timely delivery worldwide.

### ACMA Excellence Awards category explanation:

Grateful for the ACMA Excellence in Export Award, honoring our global success.

**How it is helping your company to improve further:** The ACMA Excellence in Export Award recognizes achievements in the export sector. Imperial Auto's Gold Award reflects our team's dedication and commitment to quality, innovation, and global growth. The award process has helped us benchmark performance, focus on innovation, strengthen international partnerships, boost employee morale, and foster a culture of continuous improvement. This recognition motivates us to set higher goals, expand our reach, and deliver excellence across global market.

**Company Information:** A Leading Manufacturer of Sheet Metal Automobile Components. Crafting Excellence in Sheet Metal Components.

At India Tech Industry, we pride ourselves on being at the forefront of innovation and precision engineering in the realm of sheet metal manufacturing. With a commitment to excellence and a passion for quality craftsmanship, we deliver unparalleled solutions to meet the diverse needs of our clients. India Tech Industry is a leading manufacturer specializing in the production of high-quality sheet metal components. With years of industry expertise and a dedication to staying ahead of technological advancements, we have established ourselves as a trusted name in the field and an recognized innovator in sheet metal manufacturing solutions, creating Impeccable growth & led the company.

## MISSION & VISION

**We offer competitive pricing for our products without compromising on quality.** Our goal is to provide our customers with the best possible value for their money. We adhere to stringent quality standards throughout our manufacturing process, ensuring that every component meets the highest levels of quality and reliability.

**Customization:** We understand that every project is unique. That's why we offer customizable solutions to suit the specific requirements of each client, providing flexibility and versatility in our offerings.

**Timely Delivery:** We value your time and strive to deliver our products promptly, without compromising on quality or precision.

At India Tech Industry, our vision is to be a global leader in the realm of sheet metal manufacturing. We aim to continuously innovate and engineer precision in all our products, setting new standards in the industry. Our commitment to excellence and quality craftsmanship drives us to deliver unparalleled solutions that exceed our clients' expectations.

We envision a future where our high-quality sheet metal components, ranging from automotive parts to industrial equipment, become the benchmark for performance and durability. Our goal is to offer customized metal manufacturing solutions that cater to the unique needs of our customers, ensuring their specifications and requirements are met with precision.

## Company Strengths:

- India Tech Industry Awarded ACMA's National Honor for New Product Development.
- We've been appreciated consistently positive feedback from all of our customers.
- Performance of our industry is benchmarked among our competitors.
- Clear strategic plan with a regular schedule for reviewing and updating the plan
- Well-documented technology systems and business processes with accurate data.

## ACMA Excellence Awards category explanation:

Won Bronze medal for Excellence in Safety & Merit certificate in Manufacturing.

**How it is helping your company to improve further:** ACMA has always been a support to us right from beginning when we joined the association and throughout the Manufacturing. They make us to implement concepts like value stream mapping and it effectively improves our process standards and teaches us the better usage of TIMWOOD in Manufacturing process. They are the backbone of reducing lean time in our industry. It also validates our strength and weakness as an Industry towards continuous growth. This award motivates us to be safer than before.

## CATEGORY - VERY LARGE

**Company Information:** JK Fenner India Limited is a prominent player in the industrial sector, known for its power transmission belts, sealing solutions, hoses, and industrial drives and automation solutions.

The Sriperumbudur plant specializes in the production of oil seals, vibration control mounts, boots, bellows, and elastomer gaskets. The facility has an elastomer development center and an R&D center for oil seals and vibration control mounts. The plant also has a product validation center with state-of-the-art product testing and simulation facilities. The plant focuses on sustainable practices, including captive consumption of renewable energy.

### Company Strengths:

- JK Fenner has built a strong brand presence over the years.
- Emphasizes sustainable manufacturing practices, including energy efficiency.
- Global footprint on its products with manufacturing operations.
- Well-established R&D facilities that focus on innovation and improvements.
- A strong nationwide sales and service network with around 700 dealers.

### ACMA Excellence Awards category explanation:

- Outstanding achievements in the manufacturing processes of auto component.
- Outstanding achievements in the design and development of new Products.

**How it is helping your company to improve further:** The awards has bolstered JK Fenner's reputation in the industry, showcasing their commitment to excellence and innovation. The recognition has boosted employee morale and motivation, encouraging them to strive for continuous improvement.

This award will strengthened JK Fenner's market position, making them more attractive to potential clients and partners.

This award has highlighted JK Fenner's efforts in its journey on advanced manufacturing, R&D, digitization and sustainability.

## CATEGORY - LARGE

**Company Information:** GPP offers best quality comprehensive solutions for Valve Train Components, Casting products, Chassis Components and Engineering Springs. Spread across three production plants in an area of over 29,000 sq. mtr., manufacturing facilities of GPP Group are equipped with state-of-the-art machineries and equipment for Hot Forging, Projection Welding, Induction Hardening, Gas Carburising, Hardening & Tempering, Centreless Grinding, Super Finishing, Precision Machining, CNC controlled SPM, Spring end Grinding, Shot Peening, CNC Spring Coiling, Forming Machine & Inhouse Foundry etc. Our constant endeavour is to adopt most effective global practices & policies keeping pace with the ever-changing customer needs such as Lean Manufacturing Systems, Six Sigma Techniques, TPM, IT Leverage with use of ERP

### Company Strengths:

- Anticipating customer needs to offer comprehensive & competitive solutions
- Principles which drive us ahead as a company
  - Quality & safety
  - Cost effectiveness
- On time delivery
  - Satisfactory customer service
  - Social responsibility
- We are sailors who look far yet steer across the near
- We strive for quality & excellence in everything we do

### ACMA Excellence Awards category explanation:

- At GPP We Work on "Safety First" Principle at all plants
- GPP is Delighting Customers by delivering Best Quality at most competitive cost

**How it is helping your company to improve further:** The ACMA Excellence Awards process is clear, well-organized, and focused on making real improvements in the automotive industry. By encouraging innovation, sustainability, and leadership, it pushes companies to constantly improve. They act as a tool for driving positive change and setting new standards for the entire industry. At GPP, ACMA Auditor audited our plant and given awareness of latest industry 4.0 standards which will help us to improve our manufacturing facility to next high level.

## CATEGORY - SMALL

**Company Information:** Kavia is a Bangalore - based manufacturer of high-precision engineering components with a fully equipped facility for Sheet Metal, Pressed Components, Sub-Assemblies, and Cold Forged Components, catering to various industries. We have a state-of-the-art in-house Tool Room, Press Shop, and Machining facilities, ensuring end-to-end manufacturing solutions.

With a strong focus on quality, innovation, and automation, we adhere to IATF 16949 & ISO 9001 to deliver zero-defect products. Our expertise spans automotive, defense, and industrial applications, serving leading OEMs and Tier-1 suppliers.

Kavia invests in digitization, lean manufacturing, and sustainability initiatives to enhance efficiency, reduce environmental impact, and reinforce our commitment to excellence and customer satisfaction

### Company Strengths:

- Expertise in cold forging, warm forging, stamping, and sub-assemblies
- Continuous improvement through Kaizen and SGA practices
- Investment in automation and digital transformation for efficiency
- Flexible production capabilities for customer-specific needs
- Employee engagement in safety, quality, and improvement programs

### ACMA Excellence Awards category explanation:

- We have strict protocols and training ensuring a safe work environment.
- We are working on automated workflows improving efficiency and data accuracy.
- We are following advanced processes ensuring high precision and quality output.
- Sustainable practices reducing waste and enhancing energy efficiency.
- Our agile team designing innovative solutions per customer needs.

**How it is helping your company to improve further:** The ACMA Awards process drives excellence by benchmarking us with industry leaders. The KPIs given by ACMA helped us identify gaps and gather critical data we weren't measuring before. Insights from this process guide us in digitization, quality, and safety. Key actions include SGA training, SAP adoption, PPM control, RFID expansion, and faster digitization. Sustainability, efficiency, and enhanced safety measures ensure continuous growth and competitiveness.

**Company Information:** NeoliteZKW founded in 1952 and associated for over 70 years in the manufacturing of “Automotive Lightings”. Taking innovation as the key to excellence, Neolite has evolved itself strongly in Automotive Lighting segment over the past years. Going through a tremendous technological upgradation process, the company always had the pulse of the customer's mind and traversed this long journey to carve a strong brand niche for itself. Neolite is now a brand partner to some of the biggest passenger and commercial vehicle manufacturers in India and globally. Neolite is the largest exporter of automotive lighting from India, exporting to 70 countries and supplying to more than 40 vehicle manufacturers in India and overseas.

Truck, Bus, HCV & LCV :-

CAR & MUV :-

### Company Strengths:

- We have setup modern plant, fully air-conditioned, humidity & dust controlled.
- Neolite is certified for IATF-16949, ISO-14001 and ISO-45001 management systems.
- Coming with new manufacturing plant in Pune to meet future customer requirements
- Integrated manufacturing setup including Antifog, metalizing, molding etc.
- We have installed modern in-house SMT line to manufacture LED design lamps.

### ACMA Excellence Awards category explanation:

- We are committed towards safety excellence through safe operations and practices
- We are adapting strategic approach in NPDD to deliver better value to customers.

**How it is helping your company to improve further:** External assessments are the best way to validate our improvement journey towards a right direction in business excellence. Also, it gives new opportunities for improvements based on discussions and suggestions during assessment. Overall experience of ACMA assessment has been a learning experience with giving further scope of enhancement in all business domains. With all assessment we look forward to our continuous journey towards excellence.

### Company Information:

Roop Automotives Limited (Roop Auto) – Your Future, Our Drive  
Founded in 1991, Roop Automotives Limited (Roop Auto) is a Great Place to Work™-Certified organization, renowned for its expertise in manufacturing steering components and precision parts. As a trusted supplier to leading Tier I companies, we specialize in safety-critical components, ensuring world-class quality while proudly contributing to the "MAKE IN INDIA" initiative.

What We Do

Our product portfolio includes:

Steering components – Hot forged and sheet metal steering yokes, steering joints, slip shaft & I-shaft assemblies, and steering columns.

Precision parts – Differential housings, steering gearbox housings, and other high-precision automotive components. Our Reach & Manufacturing Facilities

### Company Strengths:

- We ensure the best of "Make in India" with local support for global customers
- Specialized & High-Volume Production -We focus on safety-critical components.
- Diverse & Inclusive Workplace
- Certified as a Great Place to Work
- Commitment to Quality & Certifications

### ACMA Excellence Awards category explanation:

ACMA Excellence in ESG award, 2024

**How it is helping your company to improve further:** This audit has made us think from a different perspective as we move ahead in the ESG space. Though the metrics have been designed after due diligence keeping the best practices prevailed in the industry but in some areas Audit has given us better insight to track the performance in a better way. Also as this is our beginning in ESG space but we are moving ahead and gathering different viewpoints on the subject matter in the form of Audits. It seems that things are becoming more easy to adopt.

**Company Information:** SAP Parts specializes in providing engineering solutions for friction management, catering primarily to challenging off-highway and automotive applications. The company's focus is on developing superior materials to create high-end products, including Metal face seals, alloy bushings, and powder metallurgy components. The company holds patents for PTO sealings as well. These parts are designed meticulously to ensure optimal performance and deliver significantly increased lifespan compared to conventional alternatives. SAP Parts is committed to innovation and excellence, continually developing new materials, processes, and products to set new standards for friction management. SAP Parts strives to provide reliable, long-lasting solutions for the critical needs of the automotive industry.

### Company Strengths:

- Product Design, Metallurgy, Testing, and Performance Validation Capabilities.
- Innovation of appropriate materials & processes suitable for application needs.
- Global Reach and strong relationships with Customers and stakeholders.
- A young, skilled, and dedicated team demonstrating a high level of collaboration
- A frugal and agile approach to cater to appropriate solutions economically.

### Company Strengths:

ACMA recognizes outstanding achievement in international market penetration.

**How it is helping your company to improve further:** SAP Parts places a high value on the ACMA Awards process as it recognizes excellence and innovation within the industry. By participating, we are able to compare ourselves to our peers, receive valuable feedback, and improve our processes. Winning awards proves our dedication to quality and inspires us to continuously enhance our products and services, which leads to further growth and improvement.

Excellence in Safety  
(Silver)

## CATEGORY - VERY LARGE

**Company Information:** Our Cold-Extrusion products are designed for exceptional strength and reliability. Shaping metals at room temperature enhances the material's grain structure, resulting in superior strength and surface finish. Ideal for high-performance parts with intricate designs and tight tolerances, this process supports efficient, high-volume production while ensuring compliance with industry standards.

Our Powder Metallurgy components use advanced techniques for precision and durability. Metal powder is compacted into near-net shapes and sintered at high temperatures, producing components with excellent mechanical properties and minimal waste. This cost-effective method reduces material and machining costs while enabling the creation of complex geometries in shorter cycle times, ensuring consistent

### Company Strengths:

- Promoting a safety culture by Engineering control, Education & Enforcement
- Setting up safety policy, ensuring all statutory statutory safety compliances.
- Pep talk, Training, Strict adherence of PPE, Fire protection & work permit system
- Various safety promotional activities, SOP's, On site emergency preparedness.
- Strong Safety culture, adherence of ISO 14001, ISO 45001 standards, Deming award

### ACMA Excellence Awards category explanation:

Proactive safety culture through Safety Engineering, Education & Enforcement.

**How it is helping your company to improve further:** The ACMA Excellence in Safety Award has further strengthened our commitment to workplace safety and culture. For us, this recognition has reinforced our unwavering commitment to a zero-accident workplace and has inspired us to implement even more rigorous safety measures. It also provides an opportunity to exchange knowledge with industry peers, fostering a collective effort toward achieving higher safety standards across the Industry.

## CATEGORY - MEDIUM

**Company Information:** Trinity India Forgetech is a trusted name in manufacturing premium-quality hot forgings and machining solutions. We specialize in components ranging from 1kg to 50kg, including Hubs, Rear Wheel Spindles, Cultivators, Steering Levers, Lock Pins, Brackets, Hydraulic Parts, Connecting Rods, Yokes, Brake Housings, Mast Wheels, Differential Parts, and more. Since 1974, we have been recognized globally for delivering high-quality forged and machined parts. Our state-of-the-art facility includes RM inspection, die design, forging, heat treatment, and complete machining, ensuring exceptional craftsmanship and innovation to meet customer needs.

### Company Strengths:

- Becoming the most preferred partner for forged, machined, and assembled solution
- Achieving leadership through a focus on technology, innovation, and efficient.
- Growth without debt, excellence, customer delight, integrity, and teamwork.
- Strong problem-solving abilities, improved through ACMA project challenges.
- Expertise in ACMA-related tools VA & NVA & software, gained during the project.

### ACMA Excellence Awards category explanation:

- Prioritizing a safe work environment through proactive measures.
- Achieving precision through lean electrical, hydraulics, pneumatics, and tooling
- ESG: Reducing GHG emissions through sustainable practices and governance.

**How it is helping your company to improve further:** The ACMA Awards process has been crucial in our continuous improvement efforts. By focusing on lean practices across electrical, hydraulics, pneumatics, tooling, and fixtures, we've optimized efficiency, reduced waste, and enhanced productivity. This structured evaluation has helped identify strengths and areas for improvement, encouraging innovation and driving us toward greater operational excellence. The insights gained from the awards help us stay competitive and committed to the highest.

## CATEGORY - VERY LARGE

**Company Information:** • Uno Minda's Seating Division specializes in manufacturing of automotive seats for two-wheeler, three- wheeler, commercial vehicle and off-road segments. The company also manufactures Polyurethane (PU) foam pads, PU composites, MCU and interior modules for automobiles.

• Uno Minda Ltd has entered into joint venture with TACHI-S Company Limited ("TACHI-S"), a global seat system creator headquartered in Tokyo, Japan in Sept 2022 for manufacturing and marketing of seat recliners for passenger vehicles in India. The Joint Venture will offer various products including recliners in first phase with the intention of expanding to complete seat assembly for passenger vehicles.

### Company Strengths:

- Complete design and development capability to meet customer requirements
- NABL accredited Engineering and Technology testing lab and quality lab
- Capability of inhouse testing and certification as per AIS, ECE and ADR Std.
- In-house Robotic welding and fully automated surface treatment processes
- Employee engagement thro' Business Excellence through Simple Techniques (BEST)

### ACMA Excellence Awards category explanation:

- We have won Bronze award in Excellence in Safety
- We have won Platinum award in Excellence in NPDD and Localization
- We have won Gold award in Excellence in Export category
- **How it is helping your company to improve further:**
- Thorough and detailed audit by ACMA helped us to identify the gaps and pave way for improvements which in turn makes us competitive in the market. Inputs from veteran assessors is worth mentioning at this point of time.
- Continuous benchmarking with industry's best practices forms a solid foundation for our stability and growth
- We are very thankful to be a part of ACMA for giving us opportunity to demonstrate our Manufacturing and New Product development capabilities in such a big forum.

# PROGRAM ON ESG

**ACMA**

**Program Duration : 24 Months**

## Topics to be covered

- Understanding ESG
- Environment Stewardship
- Energy Management
- Water Management
- Safe and Joyful workplace
- Human Capital
- Societal Stewardship
- Governance
- Sustenance

ESG stands for Environmental, Social, and Governance. Investors and Customers (including automotive OEMs) are increasingly applying these factors as part of their analysis process to identify material risks and growth opportunities.

## Environmental

- Quantification of Scope 1, 2 & 3 Emissions
- Energy Efficiency
- Primary & Secondary materials efficiency
- Process Waste – Reduce, Reuse, Recycle
- Zero liquid Discharge
- Zero waste to landfill
- Water neutral

- Carbon Footprint Reduction
- Specific energy consumption reduction
- Material waste reduction
- Other waste reduction, recycling

## Social

- Safety
- Ergonomics
- Employee Engagement & Development
- Gender Diversity
- Community connect
- Carbon Offsetting – Afforestation, Water harvesting
- Renewable Energy

- Water consumption reduction
- Zero accidents
- Improved employee productivity
- Reduced energy costs
- Brand building

## Governance

- ESG Policy
- Actions for Sustainability
- Business Ethics
- Supplier Code of Conduct
- Employees' Code of Conduct
- Performance reporting
- Board composition

- Clear structure with defined roles & processes
- Improved Decision Making
- Greater shareholder value, better P/E ratios

**To know more about AMF's ESG program you may reach out to us at :**
